

Soft Chews

For dogs

-  Reducing Plaque
-  Preventing Tartar
-  Treating Bad Breath

Many dogs and cats suffer from problems related to oral health. Good oral health is important to their wellbeing. It's about creating healthy habits for oral care right from the start. ProDen PlaqueOff System® helps to prevent bad breath and clean teeth for dogs and cats throughout their life- from a small puppy or kitten, all the way to senior age.

ProDen PlaqueOff System® Holistic Soft Bites

A delicious new way to supplement your daily oral care routine! These new functional treats are a soft edition to our popular and growing brand of your favorite ProDen PlaqueOff® family.

ProDen PlaqueOff® Soft Chews

Our new ProDen PlaqueOff® Soft Chews combine exceptional oral hygiene benefits with an irresistibly delicious treat-like experience. With their unique formulation, these soft chews are designed to tackle plaque and tartar buildup, freshen breath, and promote healthier teeth and gums.

-  100% Efficient
-  Natural
-  Clinically Proven

How ProDen PlaqueOff® Soft Chews works

The specially selected seaweed A.N ProDen® works through the saliva where it softens existing tartar and prevents new plaque from forming.

Results:

The results - in the form of visibly whiter, cleaner teeth and fresher breath - are usually seen in three to eight weeks with continued use. The effect can be seen as long as the products are being used. Our Dental Care Bones can be used daily with ProDen PlaqueOff® Powder or on their own.
